# Your Benefit Choices

CaliforniaChoice® offers you a variety of plan types to choose from – helping you balance your health needs with your budget.

## Health Maintenance Organization (HMO)

An HMO provides medical services through contracted physicians and hospitals. All healthcare services are managed in-network through your Primary Care Physician (PCP).

- First select a PCP. Referrals to hospitals and specialists are managed by your PCP.
- You pay a low copayment for each office visit.

## Exclusive Provider Organization (EPO)

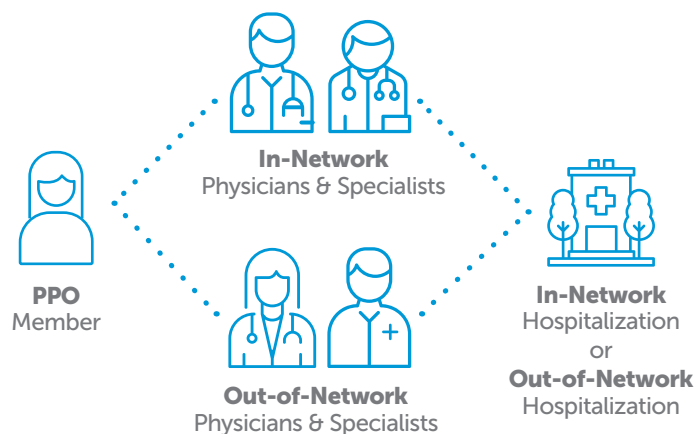

Under an EPO plan, you do not choose a Primary Care Physician (PCP). You can receive care from any of the in-network doctors and self-refer to in-network specialists.

## Preferred Provider Organization (PPO)

A PPO provides benefits within the health plan's network of doctors with the option of going out-of-network at higher costs.

- PPOs do not require you to select a PCP.
- You can self-refer to specialists and see any doctor you'd like, but your benefits are not as rich when you see out-of-network doctors.
- You can receive care from two levels of in-network doctors where you pay less, or go to out-of-network doctors for lower benefits.

An HMO plan provides a Primary Care Physician (PCP) who manages your overall health care while an EPO plan means you manage your own care, self-referring to doctors within your plan's network of physicians. With a PPO plan you also manage your own care, but choose doctors and specialists from both inside and outside the provider network.

# Finding the Right Plan for You

The key to finding a health and benefit plan that fits your family is thinking about what your family needs. Consider options like where you want to receive care, how involved you want to be in managing your own care, or how important it is to choose your own doctors. Discovering what's most important and putting it at the top of your list can help you choose the right plan.

## I want to choose my doctors.

You want to be able to use the doctors you choose, when you choose to see them, in a location that's convenient to you.

### Consider a PPO Plan

PPO plans let you use both in-network and out-of-network providers whenever you choose.

## I want a doctor to manage my care.

You want a Primary Care Physician (PCP) who will manage your care and refer you to the specialists you need.

### Consider an HMO Plan

HMO plans provide a PCP who will manage your care and refer you to the specialists you need to see.

## I'd like to manage my own care.

You're looking for an affordable plan that offers a wide network of doctors – and lets you see the doctors you choose.

### An EPO May Be Right For You

EPO plans offer the convenience and affordability of a wide network of physicians and hospitals who contract with your health plan, while allowing you to self-refer to any of the plan's in-network specialists.

## I have a health condition.

You or someone in your family is managing a chronic health condition and needs access to health coaching and health management programs.

### Look for Health Management Benefits

- HMO plans offer a PCP to help manage your health and refer you to the specialists you need.
- Look for plans with health coaching and disease management programs.

# Health Plan Choices

Choosing the health plan that's right for you is an important part of getting access to the doctors and hospitals you want, making the most of your healthcare budget, and helping you and your family live your healthiest lives.

You can also see the costs associated with adding a spouse and/or dependents to your coverage.

### Use your Personalized Enrollment Worksheet to:

- **Compare Health Plan Costs** and review your options for copayments, premiums, and out-of-pocket payments.
- **Review Your Benefit Options** to determine which health plan provides the benefits and coverage you need.

### Numbered Plans

Available plans numbered so they can be easily referenced on the following benefit summary pages.

### Detailed Benefit Summaries

Each health plan's key benefits, including deductibles, doctor co-pays, emergency room visit co-pays, etc., are broken down so that you can select the plan that best fits your budget and health care needs.

### Health Plans Sorted by Cost

Health coverage options are sorted by monthly premium, from lowest to highest cost, according to plan type (HMO, EPO, and PPO).

**Verify Your Age, Home and Employer Zip Code**

**Your Employer's Contribution**

Your employer's contribution is clearly highlighted.

**Your Cost**

The premiums listed illustrate the cost to you after your employer has made their contribution based on your pay period. You may choose this plan or select any of the other plan options that fit your needs.

**CHILDREN:** See below.

### Medical, Vision, Chiro, And Metlife & Smilesaver Dental Dependent Eligibility:

- Born to, a step-child or legal ward of, adopted by, or have an established parent-child relationship with the eligible employee, employee spouse, or domestic partner

1. See plan specific EOC for information on preventive services.

2. When an individual member of a family unit has paid an amount of Deductible and Copayments for the Calendar Year equal to the Individual Out-of-Pocket Maximum, no further Copayments will be due for Covered Services for the remainder of that Calendar Year. The remaining family members will continue to pay the applicable Copayment until the member satisfies the Individual Out-of-Pocket Maximum or until the family, as a whole, meets the Family Out-of-Pocket Maximum.

3. No change to how Specialty Drugs in Tier 4 are filled today.

4. In instances where the contracted rate is less than your copayment, you will pay only the contracted rate.

5. Maximum member responsibility.

12. Cost sharing applies per prescription for up to a 30-day supply of prescribed and medically necessary generic or brand-name drugs in accordance with formulary guidelines. Except for specialty drugs, up to a 100-day supply is available, at twice the 30-day retail copayment price, through the mail-order pharmacy. Specialty drugs are available for up to a 30-day supply through the specialty pharmacy. Cost sharing for a 12-month supply of FDA-approved, self-administered hormonal contraceptives, when applicable, will be 12 times the retail cost or four times the mail-order cost. Member cost sharing for oral anti-cancer drugs shall not exceed \$250 per prescription for up to a 30-day supply. For HDHP plans, this \$250 maximum will not apply until after the deductible is met.

13. Some drugs prescribed for sexual dysfunction, such as Cialis, Levitra or Viagra (or the generic equivalent, if available) are limited to 8 doses per 30-day supply.

Co-insurances listed are the Plan responsibility and co-payments listed are Member responsibility.

\* All services are subject to the deductible unless otherwise stated.

1. The annual out-of-pocket maximum is the total amount the member must pay for certain services in a calendar year.
2. There may be an office visit copay if the primary purpose of a visit is not preventive or other services are provided.
3. Percentage copayment amounts are based on WHA's contracted rates with the provider of service.
4. See copayment summary for applicable prosthetic/orthotic device copayment amount.
5. See plan specific EOC for information on preventive services.
6. Maximum member responsibility.
7. Limited to one pair of glasses with standard lenses or one pair of standard hard or six soft contact lenses instead of glasses.
8. Copayments do not contribute to out-of-pocket maximum.
9. Regardless of medical necessity or generic availability, the member will be responsible for the applicable copayment when a Tier 2 or Tier 3 medication is dispensed. If a Tier 1 medication is available and the member elects to receive a Tier 2 or Tier 3 medication without medical indication from the prescribing physician, the member will be responsible for the difference in cost between the Tier 1 and the purchased medication in addition to the Tier 1 copayment. The amount paid for the difference in cost does not contribute to the out-of-pocket maximum.

10. Cost share amount varies based on type of services rendered.

11. When an individual member of a family unit has paid an amount of Deductible and Copayments for the Calendar Year equal to the Individual Out-of-Pocket Maximum, no further Copayments will be due for Covered Services for the remainder of that Calendar Year. The remaining family members will continue to pay the applicable Copayment until the member satisfies the Individual Out-of-Pocket Maximum or until the family, as a whole, meets the Family Out-of-Pocket Maximum.
12. No change to how Specialty Drugs in Tier 4 are filled today.
13. In instances where the contracted rate is less than your copayment, you will pay only the contracted rate.
14. Specialty medication is tiered based on their cost efficiency and effectiveness. To see if there is a Specialty equivalent medication in this tier, please visit <https://www.uhc.com/member-resources/pharmacy-benefits/prescription-drug-lists>.

2. When an individual member of a family unit has paid an amount of Deductible and Copayments for the Calendar Year equal to the Individual Out-of-Pocket Maximum, no further Copayments will be due for Covered Services for the remainder of that Calendar Year. The remaining family members will continue to pay the applicable Copayment until the member satisfies the Individual Out-of-Pocket Maximum or until the family, as a whole, meets the Family Out-of-Pocket Maximum.

Co-insurances listed are the Plan responsibility and co-payments listed are Member responsibility.

\* All services are subject to the deductible unless otherwise stated.

- Medical or prescription services may be subject to a deductible. The member must pay for these services when services are rendered until the deductible is met in that calendar year. Charges under the deductible are based on WHA's contracted rates with the provider of service.
- The annual out-of-pocket maximum is the total amount that the member must pay for certain services in a calendar year.
- The deductible and annual out-of-pocket maximum amounts are embedded, i.e. each member in the family must meet the individual amount or the family must meet the family amount before benefits will apply for that member.
- Cost share amount varies based on type of services rendered.
- Percentage copayment amounts are based on WHA's contracted rates with the provider of service.
- Regardless of medical necessity or generic availability, the member will be responsible for the applicable copayment when a Tier 2 or Tier 3 medication is dispensed. If a Tier 1 medication is available and the member elects to receive a Tier 2 or Tier 3 medication without medical indication from the prescribing physician, the member will be responsible for the difference in cost between the Tier 1 and the purchased medication in addition to the Tier 1 copayment. The amount paid for the difference in cost does not contribute to the out-of-pocket maximum.

- There may be an office visit copay if the primary purpose of a visit is not preventive or other services are provided.
- Copayments do not contribute to out-of-pocket maximum.
- See copayment summary for applicable prosthetic/orthotic device copayment amount.
- Limited to one pair of glasses with standard lenses or one pair of standard hard or six pairs of standard soft contact lenses instead of glasses.
- Maximum member responsibility.
- See plan specific EOC for information on preventive services.

Co-insurances listed are the Plan responsibility and co-payments listed are Member responsibility.

7. For members who are not part of a family plan, once the member meets the "single" deductible, if applicable, the member is responsible for the specific cost sharing until the "single" OOPM is met. Once the "single" OOPM is met, Sutter Health Plus pays all costs for covered services. For members who are part of a family plan, once an individual member of the family meets the "individual family member" deductible, if applicable, only the individual member is responsible for the specific cost sharing until either that member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once the family as a whole meets the "family" deductible, if applicable, all members of the family are responsible for the specific cost sharing, regardless of whether each family member met their "individual family member" deductible, until either an individual member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once an individual member of the family meets the "individual family member" OOPM, Sutter Health Plus pays all costs for covered services only for that individual member. Once the family as a whole meets the "family" OOPM, Sutter Health Plus pays all costs for covered services for all family members.

regardless of whether each family member met their "individual family member" OOPM. For high-deductible health plans (HDHPs), in a "family" plan, an "individual family member" deductible must be the higher of the specified "single" deductible amount or the Internal Revenue Service (IRS) minimum of \$3,000 for 2023 plans.

8. Cost sharing also applies to other practitioner office visits. These include therapy visits, and other office visits not provided by either primary care physicians or specialists, or visits not specified in another benefit category such as Sutter Walk-in Care visits.

9. Member cost sharing payments for all essential health benefits (EHBs) accumulate toward the OOPM. This includes cost sharing that accumulates toward an applicable deductible. This does not include cost sharing for most optional benefits.

10. Individual with self-only coverage amount / Individual with family coverage amount / Family coverage amount.

11. Cost sharing applies per prescription for up to a 30-day supply of prescribed and medically necessary generic or brand-name drugs in accordance with formulary guidelines. Except for specialty drugs, up to a 100-day supply is available, at twice the 30-day retail copayment price, through the mail-order pharmacy. Specialty drugs are available for up to a 30-day supply through the specialty pharmacy. Cost sharing for a 12-month supply of FDA-approved, self-administered hormonal contraceptives, when applicable, will be 12 times the retail cost or four times the mail-order cost. Member cost sharing for oral anti-cancer drugs shall not exceed \$250 per prescription for up to a 30-day supply. For HDHP plans, this \$250 maximum will not apply until after the deductible is met.

† HSA Qualified High Deductible Plan

\* All services are subject to the deductible unless otherwise stated.

1. See plan specific EOC for information on preventive services.

2. In instances where the contracted rate is less than your copayment, you will pay only the contracted rate.

3. Maximum member responsibility.

4. No change to how Specialty Drugs in Tier 4 are filled today.

5. The Family Deductible is an embedded deductible. When an individual member of a family unit satisfies the Individual Deductible for the Calendar Year, no further Deductible will be required for that individual member for the remainder of the Calendar Year. The remaining family members will continue to pay full member charges for services that are subject to the deductible until the member satisfies the Individual Deductible or until the family, as a whole, meets the Family Deductible.

6. When an individual member of a family unit has paid an amount of Deductible and Copayments for the Calendar Year equal to the Individual Out-of-Pocket Maximum, no further Copayments will be due for Covered Services for the remainder of that Calendar Year. The remaining family members will continue to pay the applicable Copayment until the member satisfies the Individual Out-of-Pocket Maximum or until the family, as a whole, meets the Family Out-of-Pocket Maximum.

7. Specialty medication is tiered based on their cost efficiency and effectiveness. To see if there is a Specialty equivalent medication in this tier, please visit [https://www.uhc.com/member-](https://www.uhc.com/member-resources/pharmacy-benefits/prescription-drug-lists)

[resources/pharmacy-benefits/prescription-drug-lists](https://www.uhc.com/member-resources/pharmacy-benefits/prescription-drug-lists).

8. Cost sharing also applies to other practitioner office visits. These include therapy visits, and other office visits not provided by either primary care physicians or specialists, or visits not specified in another benefit category such as Sutter Walk-in Care visits.

9. Member cost sharing payments for all essential health benefits (EHBs) accumulate toward the OOPM. This includes cost sharing that accumulates toward an applicable deductible. This does not include cost sharing for most optional benefits.

10. Individual with self-only coverage amount / Individual with family coverage amount / Family coverage amount.

11. Cost sharing applies per prescription for up to a 30-day supply of prescribed and medically necessary generic or brand-name drugs in accordance with formulary guidelines. Except for specialty drugs, up to a 100-day supply is available, at twice the 30-day retail copayment price, through the mail-order pharmacy. Specialty drugs are available for up to a 30-day supply through the specialty pharmacy. Cost sharing for a 12-month supply of FDA-approved, self-administered hormonal contraceptives, when applicable, will be 12 times the retail cost or four times the mail-order cost. Member cost sharing for oral anti-cancer drugs shall not exceed \$250 per prescription for up to a 30-day supply. For HDHP plans, this \$250 maximum will not apply until after the deductible is met.

<sup>†</sup> HSA Qualified High Deductible Plan

\* All services are subject to the deductible unless otherwise stated.

- For members who are not part of a family plan, once the member meets the "single" deductible, if applicable, the member is responsible for the specific cost sharing until the "single" OOPM is met. Once the "single" OOPM is met, Sutter Health Plus pays all costs for covered services. For members who are part of a family plan, once an individual member of the family meets the "individual family member" deductible, if applicable, only the individual member is responsible for the specific cost sharing until either that member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once the family as a whole meets the "family" deductible, if applicable, all members of the family are responsible for the specific cost sharing, regardless of whether each family member met their "individual family member" deductible, until either an individual member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once an individual member of the family meets the "individual family member" OOPM, Sutter Health Plus pays all costs for covered services only for that individual member. Once the family as a whole meets the "family" OOPM, Sutter Health Plus pays all costs for covered services for all family members, regardless of whether each family member met their "individual family member" OOPM. For high-deductible health plans (HDHPs), in a "family" plan, an "individual family member" deductible must be the higher of the specified "single" deductible amount or the Internal Revenue Service (IRS) minimum of \$3,000 for 2023 plans.
- Member cost sharing payments for all essential health benefits (EHBs) accumulate toward the OOPM. This includes cost sharing that accumulates toward an applicable deductible. This does not include cost sharing for most optional benefits.

- Cost sharing applies per prescription for up to a 30-day supply of prescribed and medically necessary generic or brand-name drugs in accordance with formulary guidelines. Except for specialty drugs, up to a 100-day supply is available, at twice the 30-day retail copayment price, through the mail-order pharmacy. Specialty drugs are available for up to a 30-day supply through the specialty pharmacy. Cost sharing for a 12-month supply of FDA-approved, self-administered hormonal contraceptives, when applicable, will be 12 times the retail cost or four times the mail-order cost. Member cost sharing for oral anti-cancer drugs shall not exceed \$250 per prescription for up to a 30-day supply. For HDHP plans, this \$250 maximum will not apply until after the deductible is met.
- Cost share for telehealth is the same as the in-person visit, please refer to the specific in-person service amount.
- See plan specific EOC for information on preventive services.
- Pediatric eye exam and glasses or contact lenses are provided annually for members under age 19 as part of the essential health benefit for pediatric vision.
- A complete pair of glasses or standard contact lenses, in lieu of glasses, are covered every calendar year.
- When outpatient benefits have cost sharing that includes "deductible waived for 1st 3 non-preventive visits", the deductible is waived for the first three non-preventive visits combined, which may include office visits, urgent care visits, or outpatient MH/SUD visits.

<sup>†</sup> HSA Qualified High Deductible Plan

\* All services are subject to the deductible unless otherwise stated.

- Medical or prescription services may be subject to a deductible. The member must pay for these services when services are rendered until the deductible is met in that calendar year. Charges under the deductible are based on WHA's contracted rates with the provider of service.
- The annual out-of-pocket maximum is the total amount the member must pay for certain services in a calendar year.
- There may be an office visit copay if the primary purpose of a visit is not preventive or other services are provided.
- Percentage copayment amounts are based on WHA's contracted rates with the provider of service.
- See copayment summary for applicable prosthetic/orthotic device copayment amount.
- See plan specific EOC for information on preventive services.
- The deductible and annual out-of-pocket maximum amounts are embedded, i.e. each member in the family must meet the individual amount or the family must meet the family amount before benefits will apply for that member.

8. Maximum member responsibility.

9. Deductible waived for first three visits combined for non-preventive care, specialty care, urgent care, acupuncture and outpatient office visits for mental health/substance use disorder services.

10. Limited to one pair of glasses with standard lenses or one pair of standard hard or six soft contact lenses instead of glasses.

11. Regardless of medical necessity or generic availability, the member will be responsible for the applicable copayment when a Tier 2 or Tier 3 medication is dispensed. If a Tier 1 medication is available and the member elects to receive a Tier 2 or Tier 3 medication without medical indication from the prescribing physician, the member will be responsible for the difference in cost between the Tier 1 and the purchased medication in addition to the Tier 1 copayment. The amount paid for the difference in cost does not contribute to the out-of-pocket maximum.

12. Copayments do not contribute to out-of-pocket maximum.

13. Cost share amount varies based on type of services rendered.

14. For members who are not part of a family plan, once the member meets the "single" deductible, if applicable, the member is responsible for the specific cost sharing until the "single" OOPM is met. For members who are part of a family plan, once an individual member of the family meets the "individual family member" deductible, if applicable, only the individual member is responsible for the specific cost sharing until either that member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once the family as a whole meets the "family" deductible, if applicable, all members of the family are responsible for the specific cost sharing, regardless of whether each family member met their "individual family member" deductible, until either an individual member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once an individual member of the family meets the "individual family member" OOPM, Sutter Health Plus pays all costs for covered services only for that individual member. For members who are not part of a family plan, once the member meets the "single" deductible, if applicable, the member is responsible for the specific cost sharing until the "single" OOPM is met. Once the "single" OOPM is met, Sutter Health Plus pays all costs for covered services. For members who are part of a family plan, once an individual member of the family meets the "individual family member" deductible, if applicable, only the individual member is responsible for the specific cost sharing until either that member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once the family as a whole meets the "family" deductible, if applicable, all members of the family are responsible for the specific cost sharing, regardless of whether each family member met their "individual family member" deductible, until either an individual member meets the "individual family member" OOPM, or until the family as a whole meets the "family" OOPM, whichever comes first. Once an individual member of the family meets the "individual family member" OOPM, Sutter Health Plus pays all costs for covered services only for that individual member. Once the family as a whole meets the "family" OOPM, Sutter Health Plus pays all costs for covered services for all family members, regardless of whether each family member met their "individual family member" OOPM. For high-deductible health plans (HDHPs), in a "family" plan, an "individual family member" deductible must be the higher of the specified "single" deductible amount or the Internal Revenue Service (IRS) minimum of \$3,000 for 2023 plans.
13. Inpatient MH/SUD services include, but are not limited to: inpatient psychiatric hospitalization; inpatient chemical dependency hospitalization, including detoxification; mental health psychiatric observation; substance use disorder treatment for withdrawal; inpatient behavioral health treatment for autism spectrum disorder.
14. Pediatric eye exam and glasses or contact lenses are provided annually for members under age 19 as part of the essential health benefit for pediatric vision.
15. A complete pair of glasses or standard contact lenses, in lieu of glasses, are covered every calendar year.
16. Cost share for telehealth is the same as the in-person visit, please refer to the specific in-person service amount.

9. Cost sharing also applies to other practitioner office visits. These include therapy visits, and other office visits not provided by either primary care physicians or specialists, or visits not specified in another benefit category such as Sutter Walk-in Care visits.
10. In a high deductible health plan (HDHP), your Deductible and Out-of-Pocket Maximum work differently. In a Self-Only coverage plan, you must meet the Self-Only Deductible and the Self-Only Out-of-Pocket Maximum. Once you meet the Self-Only Deductible, Sharp Health Plan will pay for your services. The Self-Only Out-of-Pocket Maximum includes the deductible, copayments, and coinsurance. ## Ameritas Extras\*

Members enrolled on the Ameritas PPO 4000 or 5000 plan now have LASIK and Hearing Care coverage benefits!

These benefits are not tied to a network so members can seek services from any LASIK or hearing care provider. The benefits can even be used in conjunction with discounts or specials offered by the provider.

The LASIK benefit makes it more affordable for members to obtain laser vision corrections and reduce their dependency on glasses or contacts.

The hearing benefit provides coverage for an annual hearing exam and helps cover the cost of hearing devices and maintenance.
